

Southampton Tyro League Respect Line

Referees are to report any **NON – Compliance of this Respect Line layout at each game to the appointments secretary.**

At the December meeting it was agreed to implement the following with effect from January 2011.

1. Each team is responsible for marking out their own respect line where the ground do not provide one. To be marked using barriers, cones or a suitable, visible, safe line secured to the ground.
2. The respect line is to be 2m from touch line. If this is not possible due to neighbouring game it is to be at a “Safe Distance” from the touch line so as not to interfere with play on their pitch nor interfere with spectators or the assistant on the neighbouring pitch.
3. Each Respect line will be from the Half Way Line to the goal line **OPPOSITE THE ASSISTANT REFEREE.**
4. All substitutes and spectators will stay on **their own side** behind **their own respect line** for the duration of the game. A manager, first aider and one coach may be in front of the respect line but stay clear of the touch line.
